PROFESSIONAL SUMMARY

AI/ML engineering graduate (B.Tech, 2027) with hands-on experience shipping GenAI applications end-to-end, including RAG pipelines, LLM orchestration with LangChain/LangGraph, and FastAPI backends. Delivered three production-style projects spanning forecasting, NLP, and document intelligence, cutting manual effort by 60-70% and hitting 88% forecast accuracy.

EXPERIENCE

Agentic AI Intern

Feb 2026 – May 2026

Innomatics Research Labs — Remote

Built and shipped agentic AI applications using Python, FastAPI, LangChain, LangGraph, and RAG, taking features from prototype to working API endpoints. Applied prompt engineering to tune LLM outputs for accuracy across multi-step agent workflows.

SKILLS

Programming Languages	Python, Java, SQL, JavaScript
GenAI / LLM	LangChain, LangGraph, RAG, Prompt Engineering, NLP, LLM Integration
ML / DL	Scikit-learn, TensorFlow, PyTorch, Random Forest, LSTM, ARIMA, Feature Engineering
Backend & APIs	FastAPI, REST APIs, Streamlit
Data & Visualization	Pandas, NumPy, Matplotlib, Seaborn, Plotly
Databases	MySQL, SQLite, MongoDB (basic)
Developer Tools	Git, GitHub, VS Code, Google Colab

PROJECTS

AI-Powered Job Market Analytics & Skill Forecasting Dashboard (*Python, Random Forest, ARIMA, FASTAPI, Resume Analysis*): Built a full analytics platform processing 2,000+ job records to forecast in-demand skills and predict job roles, exposed via a FastAPI REST layer and React dashboard. Included an NLP-based Resume Analyzer that cut manual screening effort by roughly 60%. ([GitHub](#))

Air Quality Prediction Using Machine Learning (*Python, LSTM, ARIMA, Pandas, NumPy, Time-Series Forecasting*): Built LSTM and ARIMA forecasting models achieving 88% accuracy on 30-day AQI prediction, and owned the full pipeline from preprocessing and feature engineering through visualization using Pandas, NumPy, Matplotlib, and Seaborn. ([GitHub](#))

Medly – AI-Based Medical Document Analyzer (*Python, NLP, FastAPI, Generative AI, OCR*): Delivered an OCR and Generative AI extraction pipeline that cut manual medical report processing time by 70%, and built FastAPI REST APIs for intelligent document extraction and healthcare data analysis. ([GitHub](#))

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning

Expected 2027

Sreyas Institute of Engineering and Technology — CGPA: 7.3/10

CERTIFICATIONS & ACHIEVEMENTS

- Artificial Intelligence Fundamentals – IBM
- Principles of Generative AI & Deep Learning for Developers – Infosys Springboard
- Software Engineer Certification – HackerRank
- Hackathon Participant – India AI Impact Summit 2026 Pre-Summit Event
- 5-Day Hands-On Generative AI Workshop – Innomatics Research Labs
